Art Unit: 3722

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Guido Modiano on 10/13/98.

2. The application has been amended as follows:

In claim 1, line 5, "provided" has been changed to --adapted to connect--.

In claim 1, line 7, "adapted" has been deleted.

In claim 1, line 14, "pusher" has been changed to --bar--.

3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest the claimed combination of a bar advancement device including a carriage provided with a grip element for clamping a bar to be advanced; the carriage being slidable so as to advance the bar end into a collet and then a bar pusher is aligned with the bar deposited on supporting elements at the final position secures the bar in the collet. Such an arrangement has the advantage of advancing relatively thin bars into a collet with minimal damage to the bar.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
